# World Environment Day 5<sup>th</sup> June

## Reimagine. Recreate. Restore.

The COVID-19 pandemic and the movement restrictions imposed on us have underscored the importance of our environment to us. Hopefully, having had time to introspect, most of us will appreciate that when we destroy biodiversity, we destroy the system that supports human life.

**This is our moment.  
We cannot turn back time.**

But we can grow trees, green our cities, restore our gardens, change our diets and clean up rivers and coasts. We are the generation that can make peace with nature. Let's get active, not anxious. Let's be bold, not timid.

We are intimately interconnected with Nature. If we don't take care of Nature, we can't take care of ourselves.

By upsetting the delicate balance of Nature, we have created ideal conditions for pathogens to spread.

It is not just coronavirus we have to worry about. There is Malaria, Dengue and many more diseases that are threats to humankind.

Together We Can Act  
**Join #GenerationRestoration
